

Reinforced Z.O.E. Cement Intermediate Restorative Material

FEATURES & BENEFITS

- Polymer reinforced zinc oxide/eugenol material good for temporary fillings or as a base
- Sedative qualities on hypersensitive pulp
- Abrasion resistant with good sealing properties
- Excellent adhesion and easily removed
- 37 MPa compressive strength

#5370

Package Includes: 1 x 50g Powder, 1 x 15ml Liquid, 1 Scoop and 1 Dropper

The MARK3 line was created to provide dealers with high quality products in attractive packaging that can be presented to your customers with pride.

Our products are priced to compete in a challenging economy, and to offer an increased profit margin to dealers.

MARK3 products are readily available in a market where large manufacturers are exclusive.
