SECTION 3 - HAZARDS IDENTIFICATION ... continued

Statements of hazard	FLAMMABLE! MAY CAUSE EYE AND RESPIRATORY TRACT IRRITATION. THIS PRODUCT CONTAINS ETHANOL WHICH CAN CAUSE LIVER CHANGES, CENTRAL NERVOUS SYSTEM EFFECTS, AND BIRTH DEFECTS IN THE DEVELOPING FETUS.
Eye effects	May cause eye irritation.
Skin effects	May cause transient skin irritation.
Inhalation effects	Exposure to high concentrations may cause irritation, headache, drowsiness, and symptoms of alcohol intoxication. An Occupational Exposure Limit has been established for one or more of the ingredients (see Section 8).
Ingestion effects	Ingestion of large quantities may cause headache, dizziness, nausea, vomiting, diarrhea, dehydration, and symptoms of alcohol intoxication.
Other potential health effects	Chronic ingestion of ethanol has been associated with an increased incidence of cancer, liver cirrhosis, and, if ingested during pregnancy, congenital malformations. However, occupational handling of this product is not expected to result in relevant exposures.
Additional data	For a more detailed discussion of potential health hazards and toxicity see Section 11.
NOTE:	This document has been prepared in accordance with standards for workplace safety, which require the inclusion of all known hazards of the product or its ingredients regardless of the potential risk. The precautionary statements and warnings included may not apply in all cases. Your needs may vary depending upon the potential for exposure in your workplace.

SECTION 4 - FIRST AID MEASURES

Eyes	Immediately flush eyes with water for at least 15 minutes. If irritation occurs or persists, get medical attention.
Skin	Wash skin with soap and water. Remove contaminated clothing and shoes. Wash clothing and thoroughly clean shoes before reuse. If irritation occurs or persists, get medical attention.
Inhalation	Remove to fresh air. If discomfort persists, get medical attention.
Ingestion	Do not induce vomiting unless directed by medical personnel. Never give anything by mouth to an unconscious person. Seek medical assistance if symptoms occur or persist.

SECTION 5 - FIRE FIGHTING MEASURES

General hazard	Flammable liquid. Vapors are heavier than air and can travel to a source of ignition and flash back. Vapors may form explosive mixture with air.
Fire fighting instructions	Wear approved positive pressure, self-contained breathing apparatus and full protective turn out gear.
Extinguishing media	Use carbon dioxide, sand, extinguishing powder. Do not use water
Flash point	33°C
Autoignition	425°C
Hazardous combustion products	Emits fumes of carbon monoxide, nitrogen oxides, and hydrogen cyanide.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

General	Review Sections 3, 8 and 12 before proceeding with clean up.
Small spill	Use non-combustible absorbent material to wipe up spill and place in a sealed container for disposal. Clean spill area thoroughly.
Large spill	Contain the source of the spill or leak if it is safe to do so. Collect spill with a non-combustible absorbent material and transfer to labeled container for disposal. Close container and move it to a secure holding area.

SECTION 7 - HANDLING AND STORAGE

General handling	Use adequate ventilation. Avoid contact with skin and clothing. Avoid breathing vapor or mist.
Storage conditions	Keep away from heat, sparks, flame, and other sources of ignition. Store in a cool, dry area. Keep container tightly closed when not in use.
Temperature range for storage	Store as directed by product packaging.
