

PULPDENT Corporation

Pic-n-Stic

**It's the extra fingers you've
been waiting for**

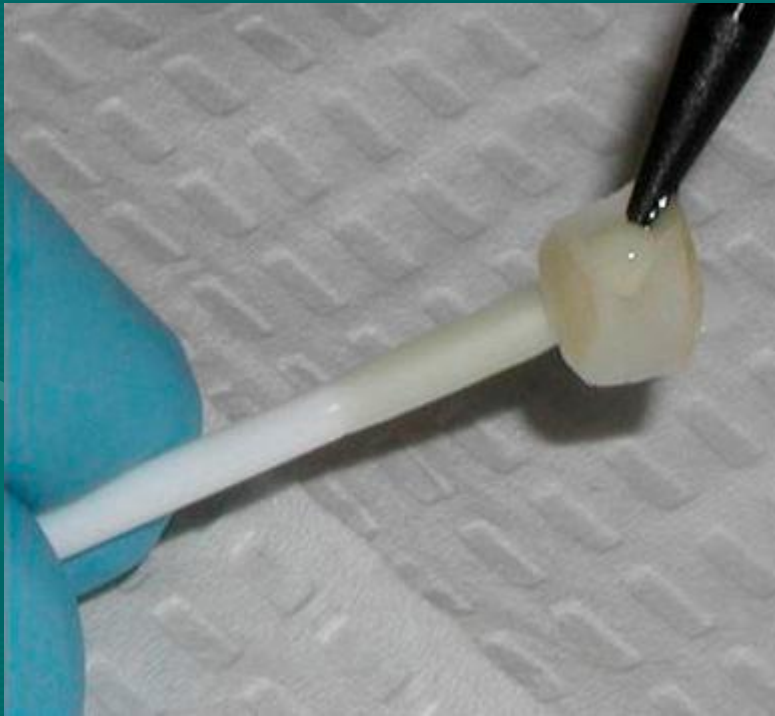

Pic-n-Stic

The original “handle for small objects” has numerous applications from dentistry to model making and placing hearing aid batteries.

Pic-n-Stic is 2” long 2 mm in diameter with an adhesive tip on one end.

Pic-n-Stic is great for holding inlays and onlays while etching, placing silane, bonding agents and cement.

PULPDENT

Pic-n-Stic is perfect for holding and placing veneers.
