*Clear and incisal colors are made available for characterization and for putting an incisal edge on temporaries.

RECOMMENDED FOR USE WITH PROVISIONAL MATERIALS

GLAZE®

Self Cure Resin Polish

GORILLA SEAL®

Ultra-clear light-cure Sealant

MASQUE®

Silicone Separator & Lubricant

PRESSURE POT

Hydraulic Water Press

TECHNICAL TIPS

Using Gorilla Seal® or Glaze® saves polishing time. Gorilla Seal will bond directly to the temporary with a halogen bulb.

Order Trim® VW (Very White) powder in addition to the standard kits to produce a temporary as white as bleached teeth

FEATURES AND BENEFITS

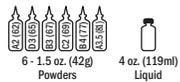

- 1 Trim II offers 6 VITA shades for greater selection
- 2 No distortion when withdrawn from undercuts
- 3 Powders can be mixed & matches together
- 4 Non-adhering to patient's natural dentition
- 5 PEMA formula suited for short-term temporaries

Trim[®] Plus

Trim[®]Plus is a PMMA formula chairside tooth shade resin for use in fabricating temporary crowns, bridges, partials, and splints.

ORDERING INFORMATION

PROVISIONAL MATERIALS
0921930 Standard Kit

FEATURES AND BENEFITS

- 1 Available in 6 VITA shades
- 2 Fast set time offers minimal chair time
- 3 Color stable creating a natural appearance
- 4 PMMA formula suited for long-term temporaries

Ultra Trim[™]

A cartridge dispensed temporary crown and bridge material. Ultra Trim[™] reduces in-office procedure time and provides excellent strength and greater flexibility without brittleness.

ORDERING INFORMATION

PROVISIONAL MATERIALS
0921803 Starter Kit A1 (Light)
0921804 Starter Kit A2 (Universal)
0921805 Starter Kit A3.5 (Dark)

FEATURES AND BENEFITS

- 1 10:1 base to catalyst ratio
 - 2 Non-irritating formul, free of monomer odors
 - 3 Auto mixed
 - 4 Minimal shrinkage = excellent fit & marginal adaptation
- Chemically bonds to itself for quick repairs or if additional material is needed
